

### The self-cleaning oven, with pyrolytic technology

The Series 60 SelfClean oven with pyrolytic technology means you'll never have to scrub the oven again. When the setting is turned on, the door will lock, and high temperatures will be activated, turning cooking residue into ash. Which can be simply wiped away once the oven has cooled.

## Product Benefits & Features

### No more scrubbing, with pyrolytic cleaning

The oven's pyrolytic cleaning function turns grease into ash. It does this by locking the door and heating the cavity to around 500°C, which is hot and powerful enough to remove any leftover residue. Once finished, and the oven has cooled, the ash can simply be wiped away.

- Pyrolytic cleaning
- Economy variable grill
- Top heat
- Bottom heat
- Fan controlled defrosting
- Retractable oven controls with LED display
- Oven features:
- Auto safety switch off and child lock
- Thermal grilling
- Pizza cooking

### Evenly cooked results, on any level

Get perfectly even oven results with Multilevel cooking. An additional heating ring promises even cooking across all three levels. Which is great for cooking more favourite dishes at the same time.

### Guided time control

The LED display takes all the guesswork out of choosing a temperature, able to suggest heats based on whichever cooking function you select. But if you like being in control, you can still adjust temperatures if and when needed, and set start and stop times.

### Convection oven, for Even Cooking

The hot air generated inside the oven during cooking is moved around with a fan, so all your dishes receive the same amount of heat. This lets the oven heat up faster, which means you'll get the same results using 20% lower temperatures, saving time and using less energy.

### Cook more at once with XL baking tray

An XL baking tray welcomes bigger dishes. Cook more at the same time for friends and family, and feel reassured it will all be ready at once.

## Product Specification

Plug	No
Self-Cleaning?	Pyrolytic
Cavity coating	Grey Enamel
Dimensions (mm) (HxWxD)	589x594x568
Dimensions (Built-in, mm)	600x560x550
Total electricity loading, W	3490
Voltage (V)	240
Frequency (Hz)	50
Temperature range	30°C - 300°C
Cavity Size (L)	72
Largest Surface area	1424
Colour	Black
Noise	45
Energy class	A+
Energy consumption, conventional mode, kWh per cycle	0.93
Energy consumption per EU standard cycle	0
ProdPartCode	ER Open
Top Oven Cooking Functions	Fan, Fan + grill, Ring + fan, Fan + ring + bottom, Grill, Top + bottom, Top + bottom (80°C fix), Top + grill, Top + half bottom
