# Loewe **multi.room amp**

Powerful stereo amplifier for multiroom and homecinema installations

## Compact size.

The Loewe multi.room amp is designed with understatement to seamlessly integrate into any living space. Its compact dimensions ensure that it can be placed discreetly, whether on a shelf, mounted on a wall, or tucked away in a cabinet. This versatility allows users to enjoy powerful, high-quality audio without sacrificing valuable space.

For professional applications in project businesses, it can also be placed in a 19" rack and secured with a central locking screw. Even two Loewe multi.room amps will fit side-by-side in a 19" rack.

## Clear design.

The amplifier's aesthetics are a testament to Loewe's commitment to exceptional design. Crafted with precision and attention to detail, it expresses a certain sophistication and elegance.

Its minimalist and linear design not only suits modern interiors, but also serves as a statement that enhances the overall aesthetic of any room.

## Multiple use cases.

Whether you are a passionate music lover or an experienced high professional in the audio industry, the Loewe multi.room amp is suitable for a wide range of users.

Its versatility enables a range of applications, from pure and analogue stereo systems to creating immersive wireless digital home cinema setups or serving as a cornerstone in professional audio production environments – nothing is impossible with the Loewe multi.room amp.

## Powerful sound.

This amplifier doesn't just deliver sound, it masters it. With an overwhelming and in this category unrivaled power amplification stage of up to 1,200 watts and a remarkably low distortion factor, it promises a listening experience like no other.

The Loewe multi.room amp offers an incomparable sound experience. It fills any room with rich, rousing sound and ensures that every note and beat is reproduced with absolute clarity and precision. Hence it is also to play with many HiFi and High-End speakers perfectly.

## Professional features.

For installers, companies and businesses, the Loewe multi.room amp is equipped with a number of advanced features specifically tailored to fit any B2B project installations.

These include a mono mode, an acoustic fine-tuning script for individual sound adjustments or the possibility of a loop-through LAN connection ("daisy-chain"), which ensure a stable and powerful audio system for commercial applications for example in bars, restaurants, villas or yachts.

The Loewe multi.room amp can even be configured in its technical parameters to match the abilities of the respective speakers perfectly.

## Expandable ecosystem.

The Loewe multi.room amp is part of an extensive ecosystem of audio products within the Loewe Klang system, supporting numerous audio streaming services and sources.

Expand the audio setup with compatible products, system components and AoD content, creating a comprehensive and customized audio experience that suits any unique preferences and needs – whether for multiroom audio or multichannel home cinema or even both seamlessly at the same time!

roon  
TESTED

**Loewe multi.room supports the music information system Roon.  
All products within the Loewe multi.room series have received the Roon  
Tested certification from Roon Labs.**

The Roon Tested certification proves that the Roon music information system can be used in its entirety with Loewe multi.room products. This extends the performance of the Loewe multi.room series and guarantees an outstanding audio experience with the simplest setup and highest reliability.

The Roon music information system offers a comprehensive and sophisticated music experience that seamlessly integrates the elements of navigating, organising and listening. Like an online dictionary, Roon provides the user with every conceivable piece of information about music. The automatic retrieval of artist photos, credits, biographies, reviews, lyrics, tour dates and composers is closely interlinked to create a navigable digital magazine as a music library. Beyond its editorial capabilities, Roon acts as a networked audio platform for multiple rooms and users. It offers features such as bit-perfect playback, DSD and PCM upsampling, multi-channel support and signal path display.

The Loewe multi.room products are perfectly integrated into Roon and ready to use for an excellent, bit-perfect audio experience. In addition, Roon is an interface for all Roon-compatible devices. Loewe's Roon Tested certification stands for power, flexibility and performance in networked audio, coupled with easy set-up and maximum reliability. This certification is a seal of approval for the seamless integration of audio technology.
