

Fresh kitchen, silent kitchen

Clearing the kitchen air after cooking is simple with the Series 60 AirBreeze hood. The hood extracts odours and vapours at a whisper. So you can enjoy your company and conversation, without distraction or interruption.

Product Benefits & Features

Smells and vapours extracted quietly with AirBreeze

Quietly refresh the air in your kitchen at the touch of a button with AirBreeze. The hood gives off very little sound, working discreetly in the background so it won't overpower your conversation.

Automatic fans, with Hob2Hood

With Hob2Hood technology, the fans overhead will adjust on their own based on your hob's settings. As you cook, the fans will speed up or slow down to match any temperature changes you make. So you can forget about hood settings, and focus on your tasty meal.

Easy handling with Touch on Glass Controls

The glass screen on the hood is touch-sensitive. Letting you choose the perfect settings with just a tap. And because there are no knobs or dials, it can be wiped down after cooking really easily, with a damp cloth.

High Performance fans, for clear air

No matter what you're cooking, the high performance motor inside the hood will be able to get rid of odours and vapours. Its power allows the fans to work quickly and quietly, for a fresh kitchen.

Better visibility with LED lights

The hood's bright LED lights make sure you can always see what you're doing when cooking on the hob.

- Variable 3+Intensive, Breeze function speed control
- Electronic touch controls
- 2 washable metal grease filter
- Recirculation or ducted* (part/parts sold separately)
- 61 dB(A) noise level

Product Specification

Colour	Black	Recirc sound power max, dB(A)	69
